LEAVES ONION

Ceiling lamp based on vertical and curved bars forming a shell. The lamp adorns a branch with brass tree leaves welded together, manufactured with the technique of casting lost wax like ancient sculptures. The similarity of the leaves with a natural leaf reaches maximum perfection as they are small sculptures with maximum detail and realism, manufactured by a sculptor. The parallelism of the bars, the decoration based on shine gold along with the sculptural leaves as ornament highlight the grandeur of the lamp.
